This report was prepared by Lewis Copulsky and Benjamin Copulsky. All material © 2010 by The Doyle Group.

Introduction

- Purpose

This survey was conducted by Lewis&Clark, an independent research organization. Its purpose was to learn about readership of publications among massage professionals. The magazines included:

- *Massage & Bodywork*
- *Massage Magazine*
- *Massage Today*
- *MTJ*

- Methodology

Email invitations to participate in an online survey were sent on July 13, 2010, to a total of 20,000 massage professionals. An opportunity to enter a drawing for an Apple iPad was offered as an incentive to participate. Survey distribution and collection was handled by Lewis&Clark, and the survey sponsor was not identified in any of the materials distributed. Magazines were listed in alphabetical order to prevent bias.

A total of 1,889 usable returns were received by the August 18, 2010 cut-off date. The margin of error for percentages based on 1,889 responses is within $\pm 2.5\%$ at the 95% confidence level.

This survey was conducted in accordance with accepted research standards and practices.

- About Lewis&Clark

Lewis&Clark is an independent research firm founded in 1983. Serving a national clientele consisting chiefly of magazine publishers and associations, Lewis&Clark specializes in providing high quality quantitative and qualitative research, via focus groups, mail, telephone, and online based methodologies.

Clients have included Goodman Media Group, Lebhar-Friedman, Oxford University Press, Reed Business Information, and United Business Media.

Significant Survey Finding:

As a group, *Massage Magazine* readers are more responsive than readers of any other publication in the field

- **Actions Taken Based on Reading Articles and Columns**

Compared to readers of other publications, *Massage Magazine* readers are more likely, after reading an article or column . . .

- to have sought further information,
- discussed item with others,
- passed item along to others,
- **visited the publication website,**
- filed item for future reference, and/or
- used/modified an idea.

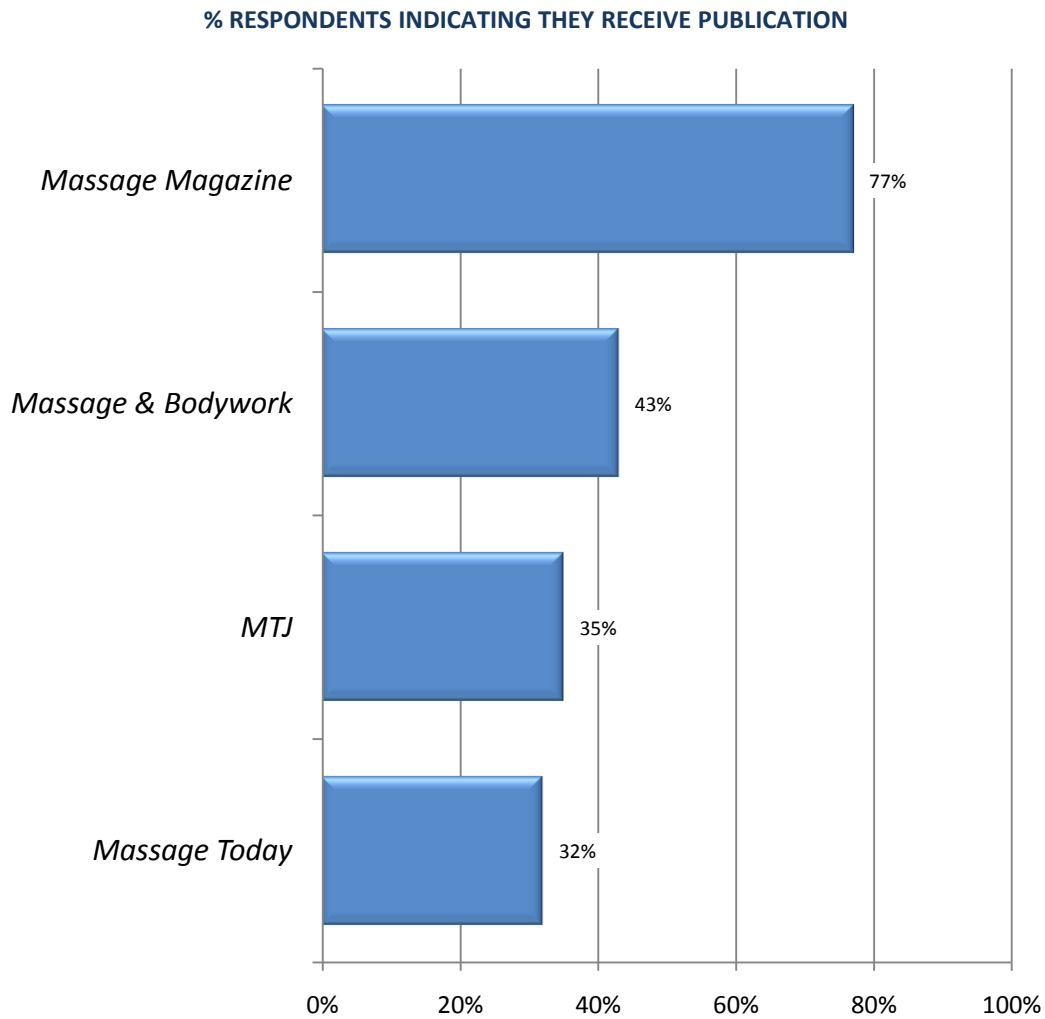

% OF RESPONDENTS TAKING SPECIFIED ACTION

	<i>Massage Magazine</i>	<i>Massage & Bodywork</i>	<i>Massage Today</i>	<i>MTJ</i>
Sought further information	70%	47%	29%	28%
Discussed item with others	72%	44%	33%	29%
Passed item along to others	66%	43%	31%	27%
Visited the publication Web site	70%	43%	27%	24%
Filed item for future reference	73%	46%	32%	34%
Used/modified an idea	71%	46%	29%	32%

Summary of Selected Findings

- Publications Received

After *Massage Magazine*, the publication most likely to be received by respondents is *Massage & Bodywork*.

- Reading Issue

Respondents are more likely to spend **at least thirty minutes** reading their issue of *Massage Magazine* than any other publication studied.

- **Reading Issue** (continued)

Respondents are more likely to read at least one-half of their issue of *Massage Magazine* than any other publication studied.

% RESPONDENTS INDICATING THEY READ 50% OR MORE OF PUBLICATION

- Retaining Issue

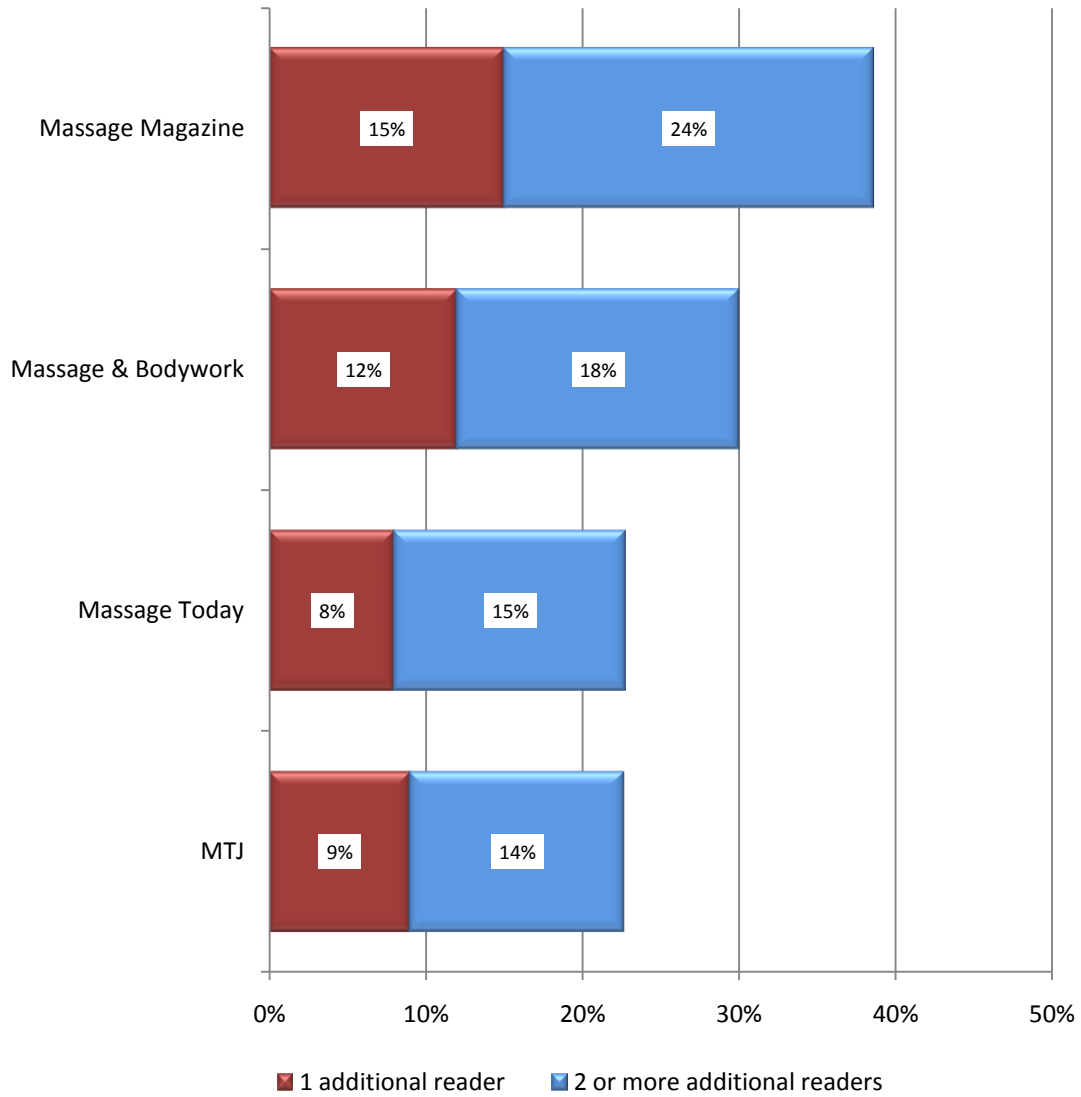

Respondents are more likely to keep their issue of *Massage Magazine* for **over a month** than any other publication studied.

- **Additional Readers**

Respondents are more likely to share their issue of *Massage Magazine* than any other publication studied.

RESPONDENTS INDICATING THEY SHARE PUBLICATION WITH ONE OR MORE PEOPLE

• Actions Taken Based on Reading Articles and Columns

Compared to readers of other publications, *Massage Magazine* readers are more likely, after reading an article or column . . .

- to have sought further information,
- **discussed item with others,**
- passed item along to others,
- visited the publication website,
- filed item for future reference, and/or
- used/modified an idea.

% OF RESPONDENTS TAKING SPECIFIED ACTION

	<i>Massage Magazine</i>	<i>Massage & Bodywork</i>	<i>Massage Today</i>	<i>MTJ</i>
Sought further information	70%	47%	29%	28%
Discussed item with others	72%	44%	33%	29%
Passed item along to others	66%	43%	31%	27%
Visited the publication Web site	70%	43%	27%	24%
Filed item for future reference	73%	46%	32%	34%
Used/modified an idea	71%	46%	29%	32%

• Actions Taken Based on Reading Advertisements

Compared to readers of other publications, *Massage Magazine* readers are more likely, after reading an advertisement . . .

- purchased/ordered a product or service,
- called advertiser,
- visited an advertiser's Web site,
- contacted an advertiser in some other way,
- contacted dealer, supplier or rep,
- recommended product or service,
